DEVELOPMENT & EQUIPMENT FEE

Annual Amount: R 300.00 (Maximum 2 per family)

Deadline: 31 March 2023

This annual development and equipment fee are a compulsory fee for all members of the dojo and has been included to upgrade and maintain the club's high-quality service. The tatami (matts) plays an important role in the development and safety of all our students. The tatami has a 2/3-year life span at most and costs R 60 000. In 2021 we managed to replace the tatami. Our priority in 2023 will be to replace old equipment, purchase super bands and assist our development clubs. The development and equipment fee have also been put into place to upgrade the knowledge base and skill level of the instructors' team (Instructor's training, Instructor's seminar, etc). We believe that combining up to date, knowledgeable and scientific training, with state-of-the-art equipment will not only increase the level of each student at the club but provide a quality professional service. The development and equipment fee forms only a small part of what continues to be an extremely challenging fundraising effort. In 2019 the dojo underwent a full-face lift, and I am sure each and every member has enjoyed the upgrade fully.
